

Today's IT professionals need **a comprehensive email security solution to block email-borne attacks** while providing the extra features needed to ensure business continuity—at one affordable price.

- ✓ **Security**
- Storage
- Application Delivery

## The Barracuda Advantage

- Free Cloud Protection Layer providing:
  - Email spooling up to 96 hours
  - Inbound email filtering
- Barracuda Real-Time Protection
- Outbound email filtering for DLP
- Cloud-based encryption included free of charge
- Configuration backup to the cloud
- Preconfigured for quick deployment
- No per-user or per-server fees

## Product Spotlight

- Industry-leading spam and virus defense for email
- Protection from data loss and reputation damage
- Long-lasting product that stays ahead of the latest threats
- Advanced, granular policy management
- Also available as a virtual appliance

### Comprehensive Protection for the Long Term

The Barracuda Spam Firewall includes spam and virus blocking, data protection, email continuity, DoS prevention, encryption, and policy management—combined to deliver a complete solution. As new requirements emerge, it is automatically updated with new capabilities to ensure continuous protection.

### Fastest Response to New Threats

The experts at Barracuda Central work 24x7 to monitor and block the latest Internet threats. Data from more than 150,000 collection points is analyzed to create and deliver protection against previously unknown threats within minutes of their discovery.

### Affordable and Easy to Use

Fast, easy set-up and simple, intuitive management keep time and resource needs low. The integration of the Barracuda Cloud Protection Layer and no per-user fees make it easy and very affordable to scale capacity as your business grows.

**Barracuda Cloud Protection Layer filters and spools inbound email traffic.**

*Virus and inbound/outbound filtering at an affordable price. If it wasn't for the Barracuda Spam Firewall, we most likely wouldn't be filtering at all, due to the high costs of other vendors' per-user pricing structures.*

Shane Henszey  
IT Manager  
U.S. Vision, Inc.

## Technical Specs

### Comprehensive Protection

- Spam and virus filtering
- Cloud Protection Layer
- Prevents spoofing, phishing, and malware
- Denial of Service (DoS/DDoS) protection
- Directory harvest protection
- Outbound email filtering

### DLP & Reputation Loss

- Maintain compliance
- Prevents reputation loss and blacklisting
- Pre-defined filters (e.g., HIPAA, credit card, and U.S. Social Security Numbers)

### Advanced Policy Control

- IP and content-based filtering
- Content encryption
- Sender/recipient filtering
- RBL and DNSBL support
- Keyword blocking
- Character-set blocking
- Reverse DNS blocking
- URL pattern and category blocking
- TLS encryption policy
- Secondary authentication

### Sender Authentication

- SPF and DomainKeys
- Emailreg.org
- Invalid bounce suppression

### Spam Filter

- Rate control
- IP reputation analysis
- Fingerprint and image analysis
- Rules-based scoring algorithms
- Barracuda Anti-Fraud Intelligence

### Virus Filter

- Triple-layer virus blocking
- Integrated Exchange AV Agent
- Decompression of archives
- File type blocking
- Barracuda Antivirus Supercomputing Grid

## System Features

### Administrators

- Web-based interface
- User account administration
- Reports, graphs, and statistics
- LDAP interface
- Multiple domain support
- Secure remote administration
- Delegated domain administration
- Delegated help desk role
- Email spooling
- Configure backup to cloud

### End Users

- User-based filtering
- Individual spam scoring
- Personal allow and block lists
- End-user quarantine and digest emails
- Outlook/Lotus Notes integration
- Bayesian analysis

## Support Options

### Barracuda Energize Updates

- Standard technical support
- Hourly spam definition updates
- Barracuda Reputation Databases
- Fingerprint and intent analysis definitions
- Hourly virus definition updates

### Instant Replacement Service

- Replacement unit shipped next business day
- 24x7 technical support
- Hardware refresh every four years

## Hardware Features

### Connectors

- Standard VGA
- PS/2 keyboard/mouse
- Ethernet (see chart below)

### Virtual Appliance

- Hardened OS
- Four models to choose from
- Common hypervisor support, including VMware ESX and VMware ESXi

| MODEL COMPARISON                 | 100*           | 200            | 300*            | 400*            | 600*              | 800               | 900               | 1000              |
|----------------------------------|----------------|----------------|-----------------|-----------------|-------------------|-------------------|-------------------|-------------------|
